TIMELINE

AGE 8 • 2019	Starts building: Minecraft servers run out of his bedroom.
AGE 9	Makes his first \$1,000 online in a single hour. His realm fit ten players at a time, so he sent the invite to roughly two million players through Xbox's Looking For Group system. About 30,000 tried to join. Starts racing BMX the same year.
AGE 12 • 2023	A group of hackers crashes his server 13,000 times a day. He tries fighting it, can't stop them, and moves on.
AGE 13 • 2024	Builds MindBloom, gamified productivity for neurodivergent minds. Around 250,000 visits in three months before he walks away.
AGE 14 • 2025	Founds CoDuck, a vibecoding tool: you describe an app and it builds it. Finishes the season as the #1-ranked 14-year-old BMX racer in North Carolina.
